4	<p>Q: What are the requirements to claim the tax relief?</p> <p>A: There are two set of requirements that applies to both employees' tax and provisional tax.</p> <p>First requirement:</p> <ul style="list-style-type: none"> ✓ A taxpayer who is conducting a trade with a gross income of 50 million or less for the year of assessment the period payment is being made for relates to; and ✓ The gross income must not include more than 10% of income derived from interest, dividends, foreign dividends, rental from letting fixed property and any remuneration received from an employer. <p>Second requirement:</p> <ul style="list-style-type: none"> ✓ The taxpayer must be fully tax compliant. That is to say, returns across tax types must have been filed and tax debts paid or arrangements made with SARS regarding any outstanding tax debts. It is important for you to ensure you are compliant for Registration, Filing and Payment of all taxes that you are liable for. ✓ An additional requirement for PAYE and ETI, is that employers must have been registered as an employer with SARS by 1 March 2020 to be able to qualify for these tax reliefs.

7	<p>Q: When are the ETI measures effective from?</p> <p>A: The ETI measures will be available to employers who registered as employers with SARS by 1 March 2020. The measures will form part of the normal ETI system administered by SARS and will take effect from 1 April 2020, running through to 31 July 2020. SARS is working hard to ensure that it will be in a position to refund employers whose ETI exceeds their employees tax liability by the time returns are due for the first period covered. This means that refunds will be available from 7 May 2020, instead of later in the year in the current six monthly cycle of refunds.</p>
